

Accommodation - Vilnius University

Accommodation in Vilnius University international dormitories is available only for Vilnius University students during the academic year.

International students tend to stay at the dormitories, as it allows them to make new friends more easily, it is cheaper and easier to arrange than a rented private accommodation and means that you don't have to hunt for a flat in the area you don't know very well. Some dormitories are close enough to the University faculties in a quite convenient location to access them by public transport or to reach on foot. However dormitories have some disadvantages: they are quite noisy and do not guarantee privacy. University accommodation slightly varies in services, so it's worth to check descriptions on our website and choose the one which responds your needs the best. The request for the accommodation at the International Student's Dormitory must be submitted to the Accommodation Office by email or regular post two months prior to arrival. **Double room 86,88 Eur** and there are **Triple rooms 57,92 Eur**

Location

Dormitories are situated in Saulėtekio, Olandų or Didlaukio street. They are close enough to the faculties. The time that is necessary to reach a faculty or any other object depends on their geographical location and the traffic causes.

<u>Type of Expenses</u>	<u>Monthly costs (Euro)</u>
